# Coco Peat

*Cair Pith*

Cocopeat blocks are considered an ideal growing medium. The cocopeat powder thus obtained is sieved, washed, dried and finally compressed into blocks. The blocks can be used for a wide range of planting requirements. Coconut Coir Pith or Coir Dust is an organic, natural product derived from Coconut Husks and is widely used in farming. Geewin Exporters is one of the leading Coconut Coir Pith manufacturers and exporters in India. The aerated structure of Coir Peat enables usage in farming. The major role played by coco Coir Peat in farming is due to its water absorbent property, and it is an excellent soil conditioner.

Dimensions: 30 x 30 x 10 cm

EC : Less than 1 mS/cm

pH : 5.5 - 6.5

Sand / Impurities : Less than 5% w/w

Short Fiber : Less than 5% w/w
